Numbers will be called until the 1st Verified bingo is called. Once we have one verified bingo, the game will remain open for approximately 2 minutes to allow other winners to call in and be verified. After the 2 minutes has expired, if there are no further winners to be verified, then the caller will announce the game closed, the # of valid bingos for that game and then proceed to close the game and move onto the next game. Once the caller has closed the game, no further winners will be verified.

Only cards purchased for that days session/game will be honoured

All serial #s and card #s have been recorded for that days session for verification purposes
